OVERVIEW AND SPONSORSHIP OPPORTUNITY

- *The International Conference on Molecular Beam Epitaxy (IC-MBE) is held on a biennial basis and rotates between Europe, the Pacific Rim and America. It is the major international forum for learning about new developments in the areas of fundamental and applied molecular beam epitaxy research; including advances in the technique, synthesis of new materials, discovery of new physical properties, formation of novel heterostructures, and the development of innovative devices. It also attracts a large audience of specialists in the field of sensors, telecommunications, solid-state lighting, displays, imaging systems, defense applications.*
- *MBE2016 will give all delegates the opportunity to share knowledge and experiences in these fields and associated technological processes.*
- *Around 400 delegates from across the world are expected to attend this major event.*
- *The Conference also provides a unique opportunity to reach decision-makers in the industry.*
- *There will be a rich programme of social events in which the delegates and their partners can choose to participate.*
- *This is your opportunity to meet a large internationally-based group of research directors, managers, project leaders and development engineers working in all fields of molecular-beam epitaxy and its applications.*
- *Financial contributions to the IC-MBE 2016 are invited from high-profile suppliers and organisations in this field.*
- **Different levels of sponsoring described below will enable you to access to special services chosen to promote your company.**
- **Should you wish to consider any other form of sponsoring (insertion of your company advertisement in the conference bags, cords and badges supports, pads and pens in the conference bags, etc...), contact us, please : sponsors@mbe2016.com**
